Annual Index to Energy Engineering Vol. 87 - 1990 by Author

Abubakr, Said; and Benjamin, Dean. Considering Three Alternatives for a Waste-to-Energy Project. Vol. 87, No. 3; 6.

Bergoust, Donald G. Thermal Storage—The Swimming Pool as An Option. Vol. 87, No. 6; 46.

Dankert, Paul M. Lighting System Control Considerations. Vol. 87, No. 1; 13.

Dollard, W. J. and Parker, W. G. Westinghouse Researches Fuel Cells for Utility Power or Cogeneration. Vol. 87, No. 3; 20.

Edmonds, J. S.; Jordan, H.E.; Edick, J. D. and Schiferl, R. F. Application of High Temperature Superconducting Materials to Electric Motors. Vol 87, No. 4; 64.

Fetters, John L. Design Criteria for Lighting: Balancing Quality, Cost and Flexibility. Vol. 87, No. 1; 23.

Hiatt, Bruce C. Energy Efficiency in Electric Motors. Vol. 87, No. 4; 36.

Karmous, Moustafa; Smith, Gayland, and Kumar, Ashok. Applicability of Variable Frequency Control is Not a General Statement. Vol. 87, No. 4; 51.

Kemp, Don. An Analysis of Cost and Savings Utilizing Thermal Storage. Vol. 87, No. 6; 68.

Kolb, James O. and Wilkes, Kenneth E. Power Generation from Waste Incineration. Vol. 87, No. 3; 49.

Lee, Richard T. and Chatterjee, Anil. Integrated Cogeneration and Chiller Systems Study. Vol. 87, No. 5; 42.

McCully, Robert A. Development History of More Efficient Lamp Designs. Vol. 87, No. 1; 29.

Murphy, Mike. Lighting Control System Study Finds 20 Percent Saving Potential. Vol. 87, No. 1; 6.

Peterson, Kent W. and Sosoka, John R. Control Strategies Utilizing Direct Digital Control. Vol. 87, No. 4; 30.

Phillips, W. Curtis. Using Computer Bulletin Boards for Energy Information. Vol. 87, No. 2; 18.

Reiley, James S. Applications of Closed Loop Water Source Heat Pumps for Space Conditioning in Commercial Buildings. Vol. 87, No. 5; 6.

Rosner, Carl H. Superconductivity—"Yesterday and Tomorrow." Vol. 87, No. 4; 6.

Scesa, S. Matching the Hot Water Load to the Cogeneration System. Vol. 87, No. 4; 43.

Annual Index to Energy Engineering Vol. 87 - 1990 by Title of Article

An Analysis of Cost and Savings Utilizing Thermal Storage, Don Kemp, Vol. 87, No. 6; 68.
Applicability of Variable Frequency Control Is Not a General Statement, Moustafa Karmous; Gayland Smith and Ashok Kumar, Vol. 87, No. 4; 51.
Application of High Temperature Superconducting Materials to Electric Motors, J. S. Edmonds; H. E. Jordan; J. D. Edick and R. F. Schiferl, Vol. 87, No. 4; 64.
Applications of Closed Loop Water Source Heat Pumps for Space Conditioning in Commercial Buildings, James S. Reiley, Vol. 87, No. 5; 6.
Case Study: McDonnell Douglas Production Facility, Klaus Schiess, Vol. 87, No. 6; 57.
Commercial Cool Storage, Ronald D. Wendlund, Vol. 87, No. 6; 18.
Conservation Assessment of Commercial Refrigeration, Gregory A. Wikler and Joseph Cade, Vol. 87, No. 5; 49.
Considering Three Alternatives for a Waste-to-Energy Project, Said Abubakr and Benjamin Dean, Vol. 87, No. 3; 6.
Control Strategies Utilizing Direct Digital Control, Kent W. Peterson and John R. Sosoka, Vol. 87, No. 4; 30.
Cool Storage for Industrial Applications, Martin L. Timm, Vol. 87, No. 6; 23.
Design Criteria for Lighting: Balancing Quality, Cost and Flexibility, John L. Fetters, Vol. 87, No. 1; 23.
Development History of More Efficient Lamp Designs, Robert A. McCully, Vol. 87, No. 1; 29.
Directory of Software for Energy Managers and Engineers, Vol. 87, No. 2; 30.
Energy Efficiency in Electric Motors, Bruce C. Hiatt, Vol. 87, No. 4; 36.
Evaluating and Selecting Thermal Energy Storage, David Wylie, Vol. 87, No. 6; 6.
Hotel Room Lighting Use Patterns: Potential for Peak Reduction, E. L. Schlacks, Vol. 87, No. 1; 57.
In How Many Seconds? – Editorial, Anna Fay Williams, Vol. 87, No. 2; 5.
Integrated Cogeneration and Chiller Systems Study, Richard T. Lee and Anil Chatterjee, Vol. 87, No. 5; 42.
Lighting Control System Study Finds 20 Percent Saving Potential, Mike Murphy, Vol. 87, No. 1; 6.
Lighting System Control Considerations, Paul M. Dankert, Vol. 87, No. 1; 13.

Matching the Hot Water Load to the Cogeneration System, S. Scesa, Vol. 87, No. 4; 43.
Modeling and Analysis of HVAC Systems with an EMCS, Alan F. Stewart, Vol. 87, No. 2; 6.
Modernizing HVAC Systems: Some Benefits and Planning, Eugene Smithart, Vol. 87, No. 5; 25.
New Lighting Options for State Buildings, J. B. Wong-Keomt; W. E. Turner; S. Hong and W. R. King, Vol. 87, No. 1; 46.
Performance Monitoring of DX Rooftop Cooling Equipment, Scott C. Silver; Philip J. Fine and Fred Rose, Vol. 87, No. 5; 32.
Photovoltaics–Today's Reality, Tomorrow's Promise, John P. Thornton; Richard Blasio and Kenneth Zweibel, Vol. 87, No. 3; 62.
Power Generation from Waste Incineration, James O. Kolb and Kenneth Wilkes, Vol. 87, No. 3; 49.
Putting More Store in Storage – Editorial, Anna Fay Williams, Vol. 87, No. 6; 5.
Reindustrialization and Energy Efficiencies – Editorial, Anna Fay Williams, Vol. 87, No. 1; 5.
Shedding Light in the New Year – Editorial, Anna Fay Williams, Vol. 87, No. 1; 5.
Some Chilling Observations – Editorial, Anna Fay Williams, Vol. 87, No. 5; 5.
Specifying Efficient Motors for New and Retrofit Projects, L. Robert Snell, Vol. 87, No. 4; 23.
Superconductivity–"Yesterday and Tomorrow," Carl H. Rosner, Vol. 87, No. 4; 6.
The HVAC System Choice with Cool Storage, Mark Vandini, Vol. 87, No. 6; 34.
The Three Energy "R's" – Editorial, Anna Fay Williams, Vol. 87, No. 3; 5.
Thermal Energy Storage for Power Plant Applications, S. Somasundaram; M. K. Drost; Z. I. Antoniak and D. B. Brown, Vol. 76, No. 3; 5.
Thermal Storage–The Swimming Pool as An Option, Donald G. Bergoust, Vol. 87, No. 6; 46.
Using Computer Bulletin Boards for Energy Information, W. Curtis Phillips, Vol. 87, No. 2; 18.
Utility Cost Management at Massachusetts General Hospital, Anand K. Seth, Vol. 87, No. 5; 17.
Westinghouse Researches Fuel Cells for Utility Power or Cogeneration, W. J. Dollard and W. G. Parker, Vol. 87, No. 3; 20.
